Page 1/1

earthChange is a [Fungible Token] (coin) limited in ****total_supply**** by the total $\text{M}\hat{\text{A}}^2$ of land on Earth(*) and limited in ****circulating_supply**** by the total $\text{M}\hat{\text{A}}^2$ of land held under the terms of the [For Product] (<https://docs.google.com/document/d/1cRYLXIQnNWfXNU88Uvxd1KgdLfOyoXSv14xyp6xytMU/>) development model.

eC does not represent property ownership, conveys no rights of governance, and suggests no expectation of profit.

(*)The land on Earth is currently around 150 Trillion $\text{M}\hat{\text{A}}^2$, but that may increase if land is added (whether floating or secured), so it is suggested total_supply be the entire surface area of planet, which is about 510 Quadrillion $\text{M}\hat{\text{A}}^2$. This makes "CubeCoin" more obvious as we track all space above and below the surface as tunnels and in the oceans and of course the entire universe.

The smart contract is deployed at <https://explorer.testnet.near.org/transactions/CwXMsRmvNGo5xhBqbBWWbMmpMevzVmkQugEVW6wbP5Nh>
